WORK EXPERIENCE

Junior ios Developer

ENCODE TECH SOLUTIONS

APRIL 2019 TO PRESENT

i worked on these projects

1. rudderUp app

its a app who find interviewee and Interviewer each other in one platform , interviewee and Interviewer can contact through message and voip call

i updated the Ui of this app and fix some bugs related to ios 13

2. BIT900

worked on all designing part of the app and implement pickerviews , tableviews , scrollView

3. APOP manager

its a commercial type app

Updated UI and implement API , uicollectionView

4. Giiava

this app is for an a factory that made sunflower oils etc, with the help of this app i have to measure that what tank of oil contain how much amount of oil , and its seen by which worker , and what worker have to add in that tank to maintain the quality ,

its a project that i have done all the part of UI work, Api work , i used many technology in this app like, tableview , collection view , alertView, pickerView, firebase loginApi,

This project i have done in instruction on my senior ios developer
