PROJECTS

Voice Assistant — Personal Assistant

It is a Python based Personal Assistant that can help us perform multiple tasks such as opening various sites in web browser like google, youtube, stack overflow. Also It can perform multiple operations like sending email, playing music, reporting the current time, searching stuff on wikipedia, etc.

Tic-Tac-Toe — Command Line Game

It is a normal command line game. Tic-Tac-Toe game consist of zeros and crosses that have to be built in a vertical, horizontal or diagonal line. The person who does this first wins the game. On the opposite side we have computer playing on behalf of a normal human.
